

Coodles OF Doodles

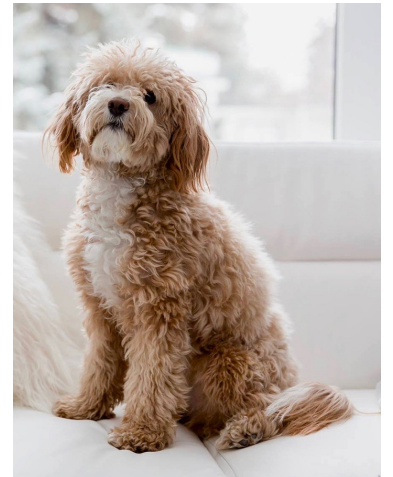

We welcome visitors to our home to meet our dogs and see how our puppies are raised.

We ask that you do not visit any other breeders or kennels before you come here to stop the spread of any disease, no exceptions.

Well behaved children are welcome however our first priority will be our puppies safety. You will be responsible for your children's behavior.

If you do not have a deposit on a litter we will be happy to give you a tour and answer any questions but you will not be able to handle any of the puppies. If you do have a deposit on a litter we ask that only immediate family members attend.

Thank you for helping to keep our dogs and puppies safe.
